ON-LINE CATALOGUES

OVERVIEW

For the benefit of customers who are unable to visit the shop in Southwell, I have, to date, compiled the three catalogues listed below.

A: History and Philosophy of the Physical Sciences and Technologies

B: Social History

C: Biographies and Diaries

In future, I plan to increase the number of such catalogues for a range of subject areas. This is a fairly time-consuming process for a one-person enterprise - so the rate at which I accomplish this is likely to be slow!

But I also have specialist collections on certain subject areas (often not stocked in the shop) about which some customers seeking certain titles may wish to enquire (preferably, initially, by email), e.g.

- History of biology, agriculture and medicine (especially infant feeding in humans and dairying)
- Philosophy and theology
- Essays
- Sociology, politics and education
